OPENING OF CITY SCHOOLS.

A brisk breeze was diffusing its refreshing coolness through the airy rooms of the public school buildings yesterday morning while teachers and pupils were taking their places. Smiling faces and cordial greetings showed all were ready to begin work, not reluctantly, but with anticipations of a happy and prosperous year. The enrollment is large.

On the East side the Eagle man found the new superintendent, Prof. Lawson, in charge with Prof. Kinnard, principal, Miss Weddington, assistant, and a full corps of teachers. Prof. Lawson has familiarized himself with every detail of the city's school affairs since his arrival, and was able to take right hold and start the machinery of the schools off without friction. He found the organization in excellent working order, and has facilitated the work by a few changes suggested by his experience.

At the west side school Prof. Bethany, the new principal, and a corps of efficient teachers, when the reporter called, were giving the children a preliminary lesson in school tactics, and if first impressions are not at fault, Prof. Bethany will prove splendidly qualified for his position.

President Ed Hall, Messrs. A. M. Waldrop, M. H. James and M. F. Dansby, members of the school board, visited both schools, and were highly gratified with the auspicious opening. President Hall assured the Eagle that it is the intention of the board to pay special attention to sanitary conditions. He added that the result of the inspection was in every way satisfactory, and that there is every reason to hope that the incoming year will be more successful than any of its predecessors.

WINNERS AT MARLIN.

Bryan's famous saddle and harness stallion, "Kentucky Pride," was at the big fair in Marlin. He was there to show against all saddle and harness stallions, but when they were all brought out no one would risk theirs against him, and there could be no premium given in his line with but one entry. The others preferred to enter as best farm and draft stallions; this was out of his line, but he was entered anyway, and won second premium, the first premium going to a large horse lately shipped from Indianapolis, Ind. It is not surprising to us for "Pride" to win some premiums in any class, as he won thirty-one firsts and two seconds in thirty-six fairs in Kentucky, Ohio and Virginia before being brought to Texas.

"Jumbo," the jack that stands at the Brazos Valley Horse and Mule Co. Sale and Breeding Barn, got second premium, and he was up against the biggest and best jacks in the state. Marlin no doubt had fair right, as there were over two hundred head of racing and show stock there besides the local stock. They were there from Beaumont, San Antonio, Houston, Ft. Worth, Dallas, Big Springs, Abilene, Ballinger, Ennis, Waxahachie, Denver, Col., Oklahoma City and Sedalia, Mo.

Aride and Jumbo are now back at their home in Bryan. d-w

TEXAS WOMAN'S COLLEGE.

Tomorrow at 10 a. m. the opening exercises of the Texas Woman's College will be held in the college chapel. To these exercises all are invited.

There will be short addresses by Dr. Geo. B. Butler, Mr. H. O. Boatwright, and President O. C. Charlton.

Prof. Lillebridge has been asked to give an account of his trip to Europe. Mrs. Lillebridge, Mrs. W. C. Davis and Mrs. J. Webb Howell will sing and Miss Imogene Bradbury will take part in the musical program.

Owing to the unavoidable delay of Miss Gatton in reaching Bryan, the recital announced for tonight has been postponed until Friday evening, Sept. 13.

Wilson & Darden have on display the latest patterns in ladies' silk elastic belts, fine back combs, bonnets, veil pins and imported neck wear. Call and inspect them. 235

MISS BERRYMAN'S MUSIC CLASS.

Miss Berryman desires to thank all patrons for past favors and to announce that she will begin her music class with the re-opening of the public schools Monday, Sept. 9. Instruction on piano and all stringed instruments. 234

PIPE LINE COMPLETED.

One of Largest Undertakings in Petroleum Industry.

Baltimore, Sept. 9.—In its last week's issue the Manufacturers' Record published details of the completion at a cost of \$5,000,000 of a pipe line connecting the oil fields in Indian Territory with the Texas gulf coast, one of the largest undertakings of the kind in the history of the petroleum industry. The work was done by the Gulf Pipe Line company in exactly six months and represents the laying of eight-inch pipe from the Glenn Pool, 150 miles through Indian Territory and 265 miles through Texas to Sour Lake, where connection is made with a pipe line leading thirty-five miles to the refinery and docks at Port Arthur. This makes a total line 450 miles long, which will require 125,000 barrels of oil to fill. Six pumping stations have been erected, each having two 37,500-barrel steel storage tanks, and the line will have a daily capacity of between 12,000 and 14,000 barrels.

The Texas company of Beaumont, another organization operating in the same field, has completed its eight-inch pipe line from a point two miles South of Tulsa, I. T., to West Dallas, Tex., a distance of 270 miles, and it is expected that the company will be sending oil through to Port Arthur by January 1. It will have nine pumping stations on its new line and is completing at West Dallas steel storage with a capacity of 450,000 barrels and a separating plant.

The gulf coast region of Texas and Louisiana had a record breaking production in 1905, but since then there has been a decrease in that field coincident with development in Indian Territory, where in the Glenn Pool field more than 700 wells have been completed, and where for months past the daily production has exceeded 75,000 barrels, and if facilities could have been provided to handle the full capacity of the wells, it might just as easily have been 100,000 or 120,000 barrels a day. The companies having large investments in refineries in southeast Texas were confronted with a somewhat serious proposition when the production of oil in the gulf coast region began to fall. Their requirements amounted to 20,000 or 25,000 barrels a day and stocks were being drawn upon to the extent of 30,000 barrels or more a day.

The facilities for handling refined products from Port Arthur when shipments are made direct from the refinery docks to English and continental ports are unsurpassed and with the completion of the Panama Canal the Texas refineries will have a vast advantage over those on the eastern seaboard in a shorter haul to many important points of consumption.

NEWTON IS BACK.

Texas Rifle Team Made Better Record Than Eighteen Others.

Austin, Sept. 9.—Adjutant General Newton has returned from Fort Clinton, where he accompanied the Texas rifle team. He says the Texans were royally entertained and acquitted themselves like veterans under the circumstances, being defeated by only two southern states—Florida and Georgia. The Lone Star boys did better than eighteen other teams.

The department of agriculture, under the new law, Monday opened reports from cotton ginners all over the state. These reports show the number of bales ginned during August.

Railroad Commissioner Mayfield and Engineer Thompson returned from Sherman and Denison, where they have been making an inspection of the blocked conditions of the Katy railway terminals. At Denison, Mr. Mayfield said he found conditions very bad. He will make a report and recommendations to the commission.

Attorney General Bonaparte wants more
authority. Such wants seem to be charac-
teristic of the Bonaparte family.

Out in Comanche county, according to
Senator Pressler, cotton pickers are demand-
ing pay by the distance traveled instead of
by the amount picked.

The North American continent is due
to tilt tomorrow; Secretary Taft steps off
its western shore onto the ship that is to
carry him across the Pacific.

Col. Faulkner, the author of "Arkan-
saw Traveller," was a grand old man,
but the song that made him famous damag-
ed the state millions of dollars.

All the world knows that Willie J. Bryan
is the first, the last and the only love
of the Miss Democracy of this generation,
and anybody else who would accept the
presidential nomination would have no
more spirit than the fellow who would
marry a girl knowing that he was second
choice. Charlie Culberson isn't that sort.

The Eagle learns from Secretary F. M.
Law of the Business League that Mr. T.
Cronin, a well known railroad contractor
of Palestine has made a proposition to build
and operate the Bryan-College trolley line
for a bonus of \$10,000 and the right-of-way.
The Eagle has in the past devoted an im-
mense amount of space to the discussion
of this project, and is just as enthusiastic
about it as ever, but whether it is practical
to take it up now or not is a matter for the
ones who are to put up the money to de-
termine, also the manner of building it.
The money market is known to be "tight"
and the crop short, and this may make it
difficult to float the proposition now. One
thing is certain, however, a trolley line is
a necessity, and a few years more, at most,
will witness its construction. Meanwhile,
if it can be done the Eagle would like to
see it done now.

The Beaumont Enterprise utters a truth
in the following suggestion that the whole
volumn could not refute, and speaks of a
condition that is apparent to every one
familiar with the industrial situation. It
says: "Skilled mechanics are hard to get
and high-salaried positions in manufactur-
ing plants go begging today. To fill
these positions with capable men it is
necessary to maintain a system of indus-
trial education." The United States, in the
past has relied too much upon inventive
genius.

Astronomer Lowell thinks he has discov-
ered on the planet Mars evidences of intel-
ligent constructive life. Mars is supposed
to be an older planet than this world of
ours, and if there be people there they are
probably old fogies.

PRISONERS BROKE JAIL.

Sunday night about midnight several
negro prisoners in the county jail made
their escape by digging out through the
floor of the corridor to the cells, and then
through the brick wall on the north side
of the jail. The four who are at large
are Cherry Burl, charged with horse theft;
Louis Samuels, charged with forgery; Ed
Parker, charged with burglary, and John
Dave, charged with assault with intent to
murder. Independent Williams, another
negro charged with assault to murder, also
got out, but went and informed Sheriff
Nall of the delivery, and was himself put
back in jail. The officers went to work
immediately on the case, none of the pris-
oners have yet been re-arrested so far as
the Eagle has been able to learn.

The men prized up the steel plates in
the floor of the corridor at the rear end
where rust had weakened the material, and
taking a heavy crossbar from beneath, were
enabled to dig down into the brick and
cement and tunnel under to the runaround
from which it was an easy matter with the
same implement to make an opening in the
jail wall and slip through. An insane ne-
gro confined in the jail kept up a continual
racket which served the prisoners a good
turn in diverting attention from such
noise as they may have made, although
they probably worked very cautiously.
Sheriff Nall offers a reward of \$25.00
each for the prisoners.

FOSTER'S WEATHER BULLETIN.

Washington, D. C., Sept. 7.—Last
bulletin gave forecasts of disturbance to
cross the continent Sept. 5th to 9th, warm
wave 4 to 8, cool wave west of Rockies
country by close of 11, great central val-
leys 12 to 13, eastern states 15. Warm
wave will cross west of Rockies about 10,
great central valleys 12, eastern states 14.
Cool wave will cross west of Rockies about
13, great central valleys 15, eastern states
17.

This disturbance will follow a long
period of very cool weather, and will
bring a return to seasonable temperatures
and moderate changes, but about the fol-
lowing Sept. 14 look out for rough weath-
er and severe storms.

The weather future connected with this
disturbance and most to be feared in
northern sections will reach Meridian 90
not far from 15, and frosts may be ex-
pected in places where frosts sometime occur
at that season.

Immediately following Sept. 7 a wave
of excessively cool weather is expected to
move across the great central valleys and
eastern states. It will cause alarm as to
frosts in northern states where crops are
not mature and I expect these frosts to do
some damage to the corn crop. Rainfall
middle week of Sept. is expected to be
about normal, but it will be greater in the
territory within 200 miles of St. Louis
than elsewhere.

In spite of the building that is going on
in Bryan continually, there is a big de-
mand for rent houses, which it seems can
never be supplied. This is due to the fine
schools of the city and to its importance
as a business point. The Eagle is pleased
to note these signs of continued and health-
ful growth.

The traffic management of the Keystone
Telephone company of Philadelphia has is-
sued an order to the employees and has re-
quested subscribers not to say "Please"
because it is a waste of time.

SUMMER CLEARING SALE

*Bryan has ever had commencing Tuesday September
10th and ending Saturday September 14*

Being away during the month of August visiting the great markets of Chicago and New York, I was not in a position to put this great summer clearing sale on before now, and it being just a little late, makes me cut the prices **deep**. Never before has Bryan had such prices on good, clean up-to-date merchandise. Remember I have no old accumulations; shelf-worn or out of date goods to offer. Why am I making these prices? Simply because I do not want to carry over any summer goods, and had rather make the sacrifice now than try to sell them to you next season, and to make room for my large fall stock that is arriving daily. By doing this I can always give you the newest. This sale will include the following: Ladies Handkerchiefs, Ladies White Waists, Ladies Vests, Collars, Belts, Bags, Parasols, White Lawns, Linens, Dotted Swisses, White Chiffon Waistings, Paris Muslin, Colored Wash Lawns. I will also include in this sale all low-cut Shoes at greatly reduced prices.

CHINESE AND JAPANESE.

Frenzied Mobs at Vancouver Participate In Possibly the Most Serious Rioting Ever Known In the History of the Canadian Pacific Railway.

Seattle, Sept. 9.—A dispatch to the Post-Intelligencer from Vancouver, B. C., says that following the rioting there, when Chinese and Japanese quarters were raided and damage approximating \$15,000 done, a further demonstration occurred, in which Kieki Yiro Ishii, chief of the bureau of commerce and head of the Japanese consular service, and Consul Hisamitsu of Seattle were central figures, and in which riot a number of people were bruised and injured by broken bottles, by flying bricks and other missiles in the hands of the frenzied mob. Baron Ishii and Consul Hisamitsu made their escape from the mob and affair was immediately cabled to Tokyo.

Coincident with the riot was the arrival of a steamship having on board at least 500 Japanese. The mob surged to the water front and as soon as the Japanese came down the gang plank they were met by the rioters. Seven or eight Japanese were unceremoniously picked up and thrown into Burrard inlet.

Still further rioting occurred when a crowd of 4,000 laborers started on the war path, but was finally quelled by the police after twenty had been arrested.

Sunday night Chinatown was roped off and criminals guarded by the police. Baron Ishii stated he cabled to Ambassador Kieki at London, apprising him of events. An indemnity from the city amounts to \$2,000, will be claimed. Mayor Bethune declares the indemnity will not be paid and the affair will be taken up with the Dominion government.

It was the worst riot in the history of the Canadian Pacific railway.

GREAT MIDDLE WEST.

John Barrett Says It Will Control Much South American Trade.

Chicago, Sept. 9.—John Barrett, director of the International Bureau of American Republics, made this statement: "The great middle west will control the trade of the entire west coast of South America when the Panama canal is completed, providing a deep water way from the lakes to the Gulf of Mexico is constructed. Otherwise it will be Japan, Germany and England which will exercise commercial sway over this vast empire to be opened up." It is Mr. Barrett's contention that the Federal government should lend all aid necessary for the construction of a ship canal to make great the advantages of the Panama canal available to Mississippi valley, and adds that it is not excessive to estimate what the value of the products these republics purchase from foreign countries is at least \$500,000,000.

Three Drowned.

Akron, O., Sept. 9.—Charles Holloway, Miss Ina Reifsnider of this city and Miss May Adkins of Cleveland were drowned and Harold B. Todd of Cleveland had a narrow escape from death by the capsizing of a canoe. Todd managed to swim ashore, but was nearly exhausted.

WILL TEST LAW.

Executive Committee Press Association to Take Action.

Dallas, Sept. 9.—The executive committee of the Texas Press association held a meeting here. Mineral Wells was selected as the 1908 meeting place for the annual convention. The dates are May 14, 15 and 16.

It was decided to test the validity of the state anti-pass law. On motion of T. J. Middleton of Waxahachie a committee, consisting of W. G. Sterett, W. A. Shaw and R. E. Yantis, was appointed to prepare an address on the matter to the people of Texas. Each member will be assessed \$5 to reimburse counsel.

The announcement by President Bule that Assistant Attorney General Pollard held that all existing contracts made prior to the enactment of the anti-pass law were legal was greeted with approval. W. G. Sterett, W. A. Shaw and John H. Cullom will take after the legal test.

It was stated that Press day at the Texas State fair is Oct. 21, and President Bule remarked that inasmuch as advertising contracts with railroads, under Mr. Pollard's ruling, did not expire until Jan. 1, he hoped that there would be a full attendance.

DOC BAILEY ARRESTED.

Charged With Murder of Owens and Taken to Penitentiary.

Nacogdoches, Tex., Sept. 9.—Doc Bailey, a negro, was arrested on charge of killing D. G. Owens, who was murdered on the day set for his wedding, and taken to Rusk penitentiary for safe keeping. This is deemed a wise precaution, as there is much indignation over the crime. Bailey was captured at Rusk. It is alleged that the negro disposed of Owens' horse, saddle and bridle to a party at that place for \$45.

It is claimed that Owens had hold of the barrel of the pistol when he was shot, in an effort to wrench it from his slayer's hand. Sheriff Blackburn says he is informed Owens was not instantly killed, but that Bailey placed a rope around his neck, and mounting Owens' horse, dragged his victim nearly 200 yards, where he cut the rope from the saddle and rode to Rusk. Bailey was about to board a train there when arrested.

APPEAL OF PIERCE.

Counsel For Texas Are to Test the Matter.

St. Louis, Sept. 9.—Despite the fact that the defense has precedent, the case of the state of Missouri against former United States Senator J. R. Burton of Kansas, counsel for the state of Texas, it was announced, will contest Henry Clay Pierce's right to appeal to the Federal courts in the habeas corpus proceedings to force him to appear as a witness in the ouster suit of Texas against the Waters-Pierce Oil company on the charge of falsely swearing that the corporation was not affiliated with the Standard Oil company. The suit against Pierce is to be heard in the United States court of appeals here at the December term.

SHOOT DOWN AT TROOPS.

Latter Go From the Furriers' School at Fort Riley to Junction City Seeking to Rescue a Comrade From Jail, but Opposition Too Strong.

Junction City, Kan., Sept. 9.—A mob of nearly fifty soldiers from the Furriers' school at Fort Riley came here about 1 o'clock Sunday morning for the purpose of releasing a comrade who was confined in the county jail. The sheriff and city police force were notified of their coming, and from positions from windows above the jail opened fire that quickly dispersed the mob as it sought to force an entrance. The authorities at Fort Riley placed guards at the jail, and are aiding in the effort to find the members of the mob. Two arrests have been made. No one was shot.

AWARDED TO AUSTIN.

Franchise Owners of Texas Baseball League Drop Out Temple.

San Antonio, Sept. 9.—The franchise owners of the Texas Baseball league met here. The pennant was awarded to Austin. Protested games in which Vinson participated were not thrown out. Dr. Robble was re-elected president. Temple was dropped. Another city will be selected to replace her.

Speaker's Last Season.

Hubbard City, Tex., Sept. 9.—Tris Speaker of Hubbard City, the crack right fielder of the Houston baseball team, who was recently sold to the Boston league team, but the contract not closed on account of the objection of his mother, has gone to Boston to finish the season, after which he says he will return home and quit the diamond.

OBSERVER OFFICE DAMAGED.

Leading Southern Journal Suffers Great Loss by Fire.

Charlotte, N. C., Sept. 9.—Fire which was discovered at 1:30 o'clock Monday morning in the four-story plant of the Observer Publishing company was not under control until 2:45 o'clock, and threatened the destruction of the entire building, including linotype machines, Hoe press and complete outfit. Editors and printers sending the forms to press for the early edition were compelled to flee from the burning building, saving only their personal effects. The fire originated in a store room on the third floor. George Wilson, fifteen years old, a deaf mute, sleeping in the store room, was reported missing.

MUCH MONEY MISSING.

Absent President Alleged to Have Absconded With Considerable Cash.

Chicago, Sept. 9.—Appointment of a receiver for the properties of Belknap-Hall Manufacturing company followed close upon the heels of the discovery by creditors of the concern of its missing president, Josse E. Hall, who is alleged to have appropriated to his own use at least \$315,000, of the corporation's funds. So far as discovered every dollar of this money went into mining stocks which were backed up with no tangible property, theatrical ventures which have no money and other securities which creditors are willing to be sold in lump for something less than \$4,000.

Indications are Hall will not voluntarily return from Canada and that criminal prosecution will be have to be instituted to bring him back to this country by the First National bank, which holds the notes of the company, aggregating \$100,000.

RAN DOWN BY TRAIN.

Alfred Gifford Instantly Killed and Two Sons Injured.

Cleveland, Okla., Sept. 9.—Alfred Gifford was instantly killed and his two sons injured when run down by a Katy freight train near Cleveland. They drove on the track, not noticing the approaching train. One horse was killed and the wagon demolished.

Accidental Hanging.

Woodward, Okla., Sept. 9.—Lavonia Reynolds, the eleven-year-old daughter of James Reynolds, living near Hixley, accidentally hanged herself in an improvised swing in her father's yard. She was attaching a rope to a tree, became entangled and her dead body was later found hanging.

Minimum of Fifteen Cents.

Jackson, Miss., Sept. 9.—The Southern Cotton association's executive committee, which has been in session here for three days, has declared for a 15-cent minimum price on cotton and not less than \$20 for cotton seed per ton. The declaration of the committee had already had the effect of stimulating the farmers.

Truly Tiny Tot.

Guthrie, Sept. 9.—Mr. and Mrs. Thomas Musick, living near Hominy, are the parents of one of the smallest babies on record. A daughter was born weighing but three pounds after being fully dressed. The child is well formed.
